WILDFIRE COMMUNITY PREPAREDNESS DAY

This Saturday, May 2 at 9am in front of the Clubhouse. The South Carolina Forestry Commission will be partnering with Horry County Fire Rescue and will be in Waterbridge. They would like to conduct some individual structure assessments for residents in our neighborhood. They do need to gain access to our property, so this "free" service is by request only. They will walk around your home and give tips and mitigation strategies that can be done around the home. Email wmanager@waterbridgehoa.com if interested in a home assessment or visit the booth on May 2.
